

DAVE HILL refers to the article in Bulletin 267 Pg.14 on British Colliery Perfin by Roy Gault. Roy showed a perfin "BC" as being known used by Bereton Colliery. Now Ledger 1 (Sloper's) also shows what could be a CROWN over ST against this user as well.

Bulletin No. 274 (Feb '95) Pg. 20.

Roy's article stated that this colliery was originally owned by the Earl of Shrewsbury and Talbot, presumably this was the reason for the Crown over the ST.

If you have the CROWN over ST perfin with a Rugeley, Staffs postmark this would give us a possible new identity.
